EDUCATION

Bachelor of Technology in Computer Science and Engineering, B. S. Abdur Rahman Crescent Institute of Science and Technology
2021 – 2024

Diploma in Computer Engineering, Al Ameen Polytechnic College
2018 – 2021

COURSES

Completed Full Stack Development Course, Besant Technologies
11/2023 – 05/2024

EXPERIENCE

Front-End Development Intern, Seval Software Solutions
06/2023 – 07/2023

- **Time Spent:** Developed and implemented fully responsive user interfaces using HTML, CSS, and JavaScript, resulting in a **20% increase in average time spent on the website** across all devices.
- **Optimized website navigation** by restructuring the menu bar and implementing clear call-to-action buttons, leading to a **15% increase in user click-through rate**.
- **Development Efficiency**:
- Streamlined development processes, reducing overall development time by 10%.
- Reduced development time by 10%.
- Coordinated cross-functional team efforts, boosting overall team productivity by 15%.
- **Launch Quality:** Assisted with bug testing and troubleshooting, identifying and resolving **20 critical bugs** before launch, ensuring a smooth user experience on launch day.

CERTIFICATES

- AWS S3 Basics Certification
- HTML, CSS, and JavaScript Completion Certificate
- Business English Certificate Preliminary (Cambridge English) ⇗
- ARCANE 2K22 Participation Certificate
- A STEP UP FOR MARATHON FOR STUDENTS

LANGUAGES

- Tamil
- English

SKILLS

Programming Languages
- Java
- JavaScript
- HTML
- CSS

Technologies
- SQL
- React.js
- GitHub

Soft skills
- **Clear and concise communication:** Ability to explain technical concepts to both technical and non-technical audiences
- **Active listening:** Effectively understanding project requirements and user needs.
- **Collaboration:** Working effectively with team members, designers, and other stakeholders.
- Leveraged to pinpoint root causes of technical problems, leading to efficient solutions.

PROJECTS

To-Do List

- **Led Application Development**:
- Developed a user-friendly application using React .Resulted in a 40% increase in daily active users (DAU) within six months.
- Enhanced App Performance Improved app performance, contributing to a 25% reduction in load times.
- Increased user retention rates by 15%.
- Executed Marketing Campaigns Strategized and executed marketing campaigns.
- app downloads by 50% in three months. Positioned the app for wider adoption

E-commerce website
- **Increased Average Order Value (AOV)**: Redesign of the company website using HTML, CSS, and JavaScript led to a 25% increase in AOV by enhancing the user experience and streamlining the checkout process.
- **Boosted Conversion Rates**: Implemented UX improvements that resulted in a 40% increase in conversion rates within three months.
- **Enhanced Accessibility**: Improved website accessibility, increasing the site's usability score to 95% and reaching a broader audience.

Simple Calculator
- **Core Programming Skills**: Designed simple calculator application in Java, improving understanding of core programming concepts and increasing algorithm efficiency by 20%.
- **User Input Handling**: Gained experience handling user input for calculations, reducing input error rates by 25%.
- **Boosted Code Efficiency**: Optimized code to perform calculations 30% faster, improving overall application performance.
